

The site plan shows the University of Illinois at Chicago campus. A red dashed line outlines the area of the new building (4) and the existing building (5). Building 4 is a large, rectangular building with a blue roof, located in the upper left. Building 5 is a large, rectangular building with a grey roof, located in the lower right. The new building (4) is situated adjacent to the existing building (5). The plan also shows various parking lots, roads, and landscaping elements like trees and walkways.

The site plan shows the University of Michigan Medical Center. A red dashed line outlines the project area. Within this area, a red shaded L-shaped region is labeled '5', representing the new building. A small square with a cross symbol is located within this shaded region. To the south of the shaded region, a larger area is labeled '6', representing the existing building. The plan also shows surrounding streets, parking lots, and trees.

The site plan shows a large rectangular area outlined in red, representing the proposed development. Within this area, a specific section is highlighted in pink and labeled with a large red number '3'. This pink area is irregularly shaped and contains several smaller buildings and parking lots. To the left of the pink area, there is a large rectangular building. To the right, there is a long, narrow building. The entire site is surrounded by a road and a parking lot. The plan also shows various trees and landscaping elements.
