

Technical drawing of a drainage system layout. The drawing shows a series of manholes (N6 to N12) connected by a PVC pipe. The elevations at each manhole are: N6 (-0.96), N7 (-1.05), N8 (-1.09), N9 (-1.17), N10 (-1.24), N11 (-1.32), and N12 (-1.39). The distances between manholes are: 19m between N6 and N7, 8.5m between N7 and N8, 15m between N8 and N9, 15m between N9 and N10, 15m between N10 and N11, and 15m between N11 and N12. A slope of 0.5% is indicated for the pipe. A section of the pipe is highlighted in orange and labeled 'Vasca Settica'.
